

Statement of Compliance with Build America, Buy America (BABA)

May 2, 2024

To Whom It May Concern:

This letter confirms that, upon request, Prysmian's copper and aluminum cable products are capable of meeting the requirements for manufactured products under the Build America, Buy America Act (BABA), Pub. L. No. 117-58, §§ 70901-52, as mandated by Title IX of the Infrastructure Investment and Jobs Act (IIJA), Pub. L. No. 117-58.

Compliance with the BABA provisions for manufactured products require "the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation."

Prysmian is proud to operate multiple manufacturing facilities across the United States that can offer a broad variety of copper and aluminum cables compliant with the Build America, Buy America Act. As a world leader in the cable industry, Prysmian is committed to supporting the market and the growing needs of its North American customers with BABA-compliant cable products.

Compliance with BABA provisions needs to be requested at the time a purchase order is placed to ensure domestic preference requirements are met. For additional information, we invite you to contact our sales representatives who are available to assist and support your domestic procurement needs.

Thank You,

Katie Campe
Trade Compliance Specialist, North America
