

**Smart**  
**Stripe**

Encore Wire introduces **SmartStripe**, the building wire industry's smartest way to stripe wire. With **SmartStripe's** thicker banding, color visibility has been taken to the next level. The big idea is in the **SmartStripe** THHN/THWN-2 application process, which eliminates rub-off when handling. Brilliant! Our color striping is easy to see at any angle. Genius! The smart move for wire striping is Encore's **SmartStripe**. Using anything else would be...well, you know.

## ADVANTAGES OF USING SMARTSTRIPE

- Thicker color band provides higher visibility and instant identification
- 360-degree color band, noticeable from any angle
- SmartStripe's THHN/THWN-2 application process eliminates rub-off due to lubes, handling or the surrounding environment
- No lube needed with Encore's SuperSlick Elite® - enjoy a truly slick wire with our SmartStripe technology
- No pre-labeling required
- SmartStripe increases safety and efficiency and is ideal for electricians and inspectors looking to increase the speed and accuracy in identifying a wire.
- The savings add up - approximate labor savings of one to two minutes per leg

**AVAILABLE IN TFN,  
TFFN, THHN/THWN-2
