

AluminumProduct Line

Type SE-U

Type SE-R

Type TC-ER-SER Hybrid

THHN/THWN-2

Encore's Patented SuperSlick Elite®

XHHW-2

Encore's Patented SuperSlick Elite®

USE-2

Photovoltaic

MC Cable with THHN/THWN-2 Inners Available in Steel or Aluminum Armor

MC Cable with XHHW-2 Inners Available in Steel or Aluminum Armor

PVC Jacketed MC Cable with THHN/THWN-2 Inners Available in Steel or Aluminum Armor

PVC Jacketed MC Cable with XHHW-2 Inners Available in Steel or Aluminum Armor

Single Conductor Underground Distribution Cable

Available in Single-Rated Only

Available in Single-Rated or Triple-Rated

Available in Single-Rated or Triple-Rated

Available in Single-Rated or Triple-Rated

Bare Overhead Supporting Neutral ACSR Construction

> **Duplex Overhead Service Drop** ACSR Construction

Triplex Overhead Service Drop

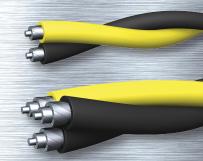

ACSR Construction

Quadruplex Overhead Service Drop ACSR Construction

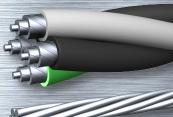

Tray Cable with THHN/THWN-2 Inners With or Without Ground

Tray Cable

with XHHW-2 Inners With or Without Ground

ALUMINUM PLANT

Built in 2012 and expanded in 2015, Encore's aluminum plant features state-of-the-art equipment to produce top-of-the-line aluminum wire products and enable us to deliver them faster than anyone in the industry. This plant has the capability to draw, strand, insulate and jacket single or multi-conductor aluminum wire as finished products in sizes 8 AWG through 1000 KCMIL.

Single-conductor insulated aluminum products from this plant include:

- THHN/THWN-2 SuperSlick Elite®
- XHHW-2 SuperSlick Elite[®]
- USE-2
- Photovoltaic
- Single Conductor Underground Distribution Cable
- Bare Neutral Overhead Service Drop Cable

Multi-Conductor products produced in this plant include:

- SFI
- SER
- TC-ER-SER Hybrid
- Mobile Home Feeder (MHF)
- Underground Distribution Cable (1350 and 8000 series alloy)
- Overhead Service Drop (OH)
- Metal-Clad Cable (with or without a PVC jacket)
- Tray Cable

CAPABILITIES

RIGOROUS PRODUCT TESTING

All of our cut and finished reels produced with a cross-link polyethylene (XLPE) insulation undergo an additional UL Insulation Resistance-in-Water Test, ensuring that your product is thoroughly insulated to our highest standards.

SUPERSLICK ELITE®

Our Patented SuperSlick Elite (SSE) technology allows for a faster, easier pull through conduit, cable trays and raceways without the need for additional lubricant. SSE® technology is applied to THWN-2 and XHHW-2 in sizes 8 AWG through 1000 KCMIL.

COLORS

Our award-winning colors significantly increase safety on job sites by reducing the possibility of phasing mistakes. It also helps simplify complex wiring jobs as well as save time and money. We can custom color your wire to give you a competitive edge.
