THHN/THWN-2 OR XHHW-2 INNERS

CAPABILITIES

RIGOROUS PRODUCT TESTING

All of our cut and finished reels produced with a cross-link polyethylene (XLPE) insulation undergo an additional UL Insulation Resistance-in-Water Test, ensuring that your product is thoroughly insulated to our highest standards.

SUPERSLICK ELITE®

Our Patented SuperSlick Elite (SSE) technology allows for a faster, easier pull through conduit, cable trays and raceways without the need for additional lubricant. SSE® technology is applied to THWN-2 and XHHW-2 in sizes 8 AWG through 1000 KCMIL.

COLORS

Our award-winning colors significantly increase safety on job sites by reducing the possibility of phasing mistakes. It also helps simplify complex wiring jobs as well as save time and money. We can custom color your wire to give you a competitive edge.

COPPER PRODUCTS

Encore Wire is a leading manufacturer of copper and aluminum residential, commercial and industrial building wire. Our expansive, state-of-the-art warehouse facilities allow us to engineer, manufacture, and deliver a broad range of the highest-quality products.

Residential Products:

- NM-B
