

METAL CLAD BARREL PACKS

EFFORTLESS PULLING

No extra tools, and no tangles! The MC Barrel serves as an instant payoff system.

NO TANGLE AT ANY ANGLE

With barrel sitting in middle of room, wire can be paid out in a 360° radius. No readjustment needed, just pull.

MORE FOR LESS

Longer put-up and continuous footage equals less setup, less packaging, and less scrap.

PORTABLE & EASY TO SET UP

Easily maneuver the MC Barrel Pack with any industrial dolly or cart; no need to buy special equipment or tools.

PROPRIETARY PACKAGING TECHNIQUE

Smaller container, with 10% more footage than competitors.

GRAB & GO WITHOUT ANY TANGLES

ADVANTAGES OF THE MC BARREL PACK

- THHN/THWN-2 conductors
- Available in standard 120V/208Y and 277V/480Y color codes as well as custom colors
- Portable and easy to set up
- Barrel serves as an instant payoff system
- Eliminates the need for multiple reels
- Less waste created by barrel pack vs. reel
- Money and time savings on jobsite or in prefab construction
- Less space on a truck, in a warehouse, or on a jobsite than traditional reels
- Longer continual runs means less reels to deal with and less wire scrap produced
- Smaller, easier to handle drum with 10% more footage than competitors
