

OUR NEWEST VERSION OF THE REEL PAYOFF®

The new premium version is now available and even **easier to maneuver!** Similar to the original, the Reel Payoff® allows you to pull directly from the cradle pallet. When off the pallet, the Reel Payoff® Premium rotates within its own axis for 360-degree maneuverability; perfect for small spaces. Also, there's no jack-stand needed!

SINGLE SHEET HARD WOOD

The new version of the Reel Payoff® is lighter in weight! With the single sheet, hard wood design, this enhanced version of the Reel Payoff® allows for **decreased pulling tension** and is more stable overall.

UPGRADED FEATURES

- 1 The metal drum is **pre-cut** with wire-tail slots, accommodating virtually any wire size. Slots are also contained and clean, which maintains the integrity of the reel.
- 2 The premium version of the Reel Payoff® can be used 10 times more than the original Reel Payoff under normal, controlled conditions.*

WELDED METAL BAND

Maneuvering has never been easier! With our re-designed welded metal band, you can easily position our Reel Payoff® Premium in your desired location and get ready to pull!

ROLL-OFF POSITION

All Reel Payoff® Premiums are shipped in **roll-off position**, reducing material handling costs and possible damage. No need to flip the reel!

**Calculated values are based on time studies conducted. Results may vary based on job specific situations or applications.*

LESS WEIGHT MORE MOBILITY REEL SAVINGS

WHY CHOOSE THE NEW PREMIUM VERSION?

- Enhanced weatherability
- Easier to maneuver on unpredictable terrain
- Decreased set-up time
- Unlimited supply
- Lighter weight
- Fits through a 32" door frame
- One time purchase from Encore Wire
- Can be reused for future projects
