

# TC-ER SE-R HYBRID®

ONE CABLE SOLUTION

Available in CU or AL

**AN EFFICIENT AND SUCCESSFUL SOLUTION—ALL IN ONE ROBUST CABLE!**

- Can be used indoors or outdoors and in above-ground or underground applications on the load side.
- Can be installed in locations where traditional TC cable can't be installed.
- TC-ER SE-R HYBRID® cable can transition from SE-R cable to TC-ER cable instantly due to patented construction.
- Can run anywhere indoors that traditional SE-R can run.
- No need for expensive TC-ER cable fittings when used as SE-R. Normal SE-R fittings and straps will work perfectly with TC-ER SE-R HYBRID®.
- More robust jacket than normal SE-R, making it less prone to damage during tough residential and commercial installations.
