COPPER PRODUCTS

Encore Wire is a leading manufacturer of copper and aluminum residential, commercial and industrial building wire. Our expansive, state-of-the-art warehouse facilities allow us to engineer, manufacture, and deliver a broad range of the highest-quality products.

Residential Products:

- NM-B
- NM-B PCS
- UF-B
- SEU
- SER
- TC-ER SE-R HYBRID®

Commerical Products:

- THHN/THWN-2 SuperSlick Elite®
- XHHW-2 SuperSlick Elite®
- USE-2
- Flexcore[®]
- Photovoltaic
- Tracer Wire
- MTW
- TFFN/TFN

Metal-Clad Products:

- Metal-Clad Cable (with or without a PVC jacket)
- MC-SG SmartGround®
- MC-HCF SmartGround[®]
- MC-LED
- MC-ISG
- MC-MLN
- MC-FPLP
- MC-MLC
- Armor-Clad Cable

Industrial Products:

• Tray Cable (with or without ground)

CAPABILITIES

RIGOROUS PRODUCT TESTING

Every finished production length of single-conductor cable is subject to, and passes, UL 2556 requirements for insulation A-C Spark test. These conductors also comprise our cabled construction products. Strict adherence to UL standards through our UL certified DAP quality control lab insures the highest possible product quality. Additional optional dielectric voltagewithstand in water testing is also available.

SUPERSLICK ELITE[®]

Our Patented SuperSlick Elite[®] (SSE) technology allows for a faster, easier pull through conduit, cable trays and raceways without the need for additional lubricant. SSE[®] technology is applied to THWN-2 and XHHW-2 in sizes 8 AWG through 1000 KCMIL.

COLORS

Our award-winning colors significantly increase safety on job sites by reducing the possibility of phasing mistakes. It also helps simplify complex wiring jobs as well as save time and money. We can custom color your wire to give you a competitive edge.
